Bloomfield has a NEW plan, the ROSE II - Transitional 2-story home offering 5 large bedrooms, 4 baths, Study, upstairs Game Room & Media Room, and a roomy Covered Patio nestled in the back. Soaring ceiling and an exposed wrought iron staircase off the foyer entrance give you a sense of drama, while timeless ceramic wood-look tile floors line the open common areas. It's easy to imagine spending time in the Family Room by the contemporary DECO tile fireplace, gathered around the huge island, or cooking your favorite meal on the double ovens & 5-burner gas range. Premium finishes like upgraded quartz counters, high-end DECO tile backsplash, pendant lights, and upgraded cabinetry add elegance & value. On the exterior, you'll be thrilled with the white brick upgrade, stained cedar garage doors, uplights, and the custom 8' front door that make this home stand out on the street! Mud Room, massive Primary, Jack & Jill bath upstairs.. the list goes on & on!
